DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Specification

2. The examiner respectfully suggests that the Applicant carefully review the specification for idiomatic and grammatical errors, which may have inadvertently overlooked.

Claim Objections

3. Claims 4 and 6 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claims 4 and 6 both recite the limitation "electrical conductors which comprise electrical conductors". This is apparently not further limiting.

Allowable Subject Matter

4. Claims 1 – 6 are allowed.
5. The following is a statement of reasons for the indication of allowable subject matter: While antennas being located within a vehicle lock is known as is shown by the cited prior art, the combination of an antenna contactlessly integrated into a bundle of electrical conductors in combination with the lock or antitheft system of a vehicle is not shown or suggested by the prior art of record.

Ex Parte Quayle

6. This application is in condition for allowance except for the following formal matters:

The non-further limiting claims 4 and 6.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
